## Judging Criteria

The performance of each rider is judged on overall impression including, but not limited to:

- |               |                         |                     |
|---------------|-------------------------|---------------------|
| - Difficulty  | - Style                 | - Landings          |
| - Height      | - Consistency           | - Use of the course |
| - Flow        | - Variety of tricks     | - Execution         |
| - Originality | - Control of the tricks | - Progression       |
| - Versatility | - Control               |                     |

The overall composition of the runs is most important as the judges evaluate the sequences of tricks, the amount of risk in the routine, and how the rider uses the course. The judges take errors such as falls and stops into consideration.

## Osijek

### About Osijek:

Osijek is the fourth largest city in Croatia with a population of 108,048 in 2011. It is the largest city and the economic and cultural centre of the eastern Croatian region of Slavonia, as well as the administrative centre of Osijek-Baranja County. Osijek is located on the right bank of the river Drava.

### Arrival:

From Zagreb, Belgrade and Budapest to Osijek is 2.5 hours car drive, and from Sarajevo it would take you about 4 hours. The border with Hungary is 50 km away, from Serbia 35 km and from Bosnia and Herzegovina 100 km.

With Zagreb and other major cities in Croatia, Osijek is directly connected by rail lines and frequent bus lines. To the capital cities of neighbouring countries you can come with connecting public transport and a direct bus line you can get from Belgrade (SRB).

Airlines in the country connect Osijek with Zagreb, Rijeka, Split and Dubrovnik. From the airports in Zagreb, Budapest (Hungary), Belgrade (Serbia) and Tuzla (Bosnia and Herzegovina) you can come relatively quickly to Osijek.

### By car:

On the highways you have to pay a toll that's charged according to the rates of the Hrvatske autoceste company (Croatian Highways).

If you're driving from the west take the A3 - A5 highway (Ljubljana, SLO - Zagreb - Slavonski Brod - Đakovo - Osijek).

From west and east take a state road D2 (Graz, A - Maribor, SLO - Varaždin - Koprivnica - Virovitica - Našice - Osijek - Vukovar - Ilok - Novi Sad, SRB - Belgrade, SRB). From the south and north take the state road D7 or the A5 highway (Bosanski Šamac, BiH - Slavonski Šamac - Đakovo - Osijek - Beli Manastir - Pecs, HU - Budapest, HU).

### Moving around:

From Josipovac in the west of Osijek, through urban neighbourhoods Retfala, Upper Town, Tvrdča and Lower Town to the village of Sarvaš, Osijek is elongated along the river Drava for almost 25 km. On the longest route from Podravlje to Brijest and Čepin, the city of Osijek is 10 km wide. Therefore, the simplest way to get around the city is by public transport.

The city itself (Osijek) is cross-linked with about 40 km of cycling trails that stretch even in the suburbs.
